About Online Statements

View and print your statements anywhere and anytime you access the Internet.

There's absolutely no fee for switching to online statements.

Reduce the risk of mail fraud and identity theft that comes with paper delivery.

Online Statements help to protect the environment. Less paper means more trees. By switching to electronic statements the average American household can save 6.6 pounds of paper in one year!

View and access your statements with ease. You will receive automatic email notifications when your online statements are available.

Online statements are PDF's which you can save, print, and access from your personal computer as needed.

It only takes a moment to switch to online statements. Sign-up today!

Simple Advice:

10 Ways To Green Your Life

- 1 Sign-up for Online Statements! Not only for your retirement plan, but for all of your personal accounts.
- 2 Walk or bike to work. This saves on gas and parking costs while improving your health.
- 3 Skip the bottled water. Use a water filter to purify tap water or carry a reusable water bottle. Bottled water is expensive and generates large amounts of container waste.
- 4 Borrow instead of buying. Borrow from local libraries instead of buying personal books and movies. This saves money as well as the ink and paper that go into printing new books.
- 5 Save energy. Set your thermostat a few degrees lower in the winter and few degrees higher in the summer to save on heating and cooling costs.
- 6 Install compact fluorescent light bulbs when your incandescent bulbs burn out. The compact fluorescent light bulbs use less energy to produce better light than standard light bulbs.
- 7 Unplug. Take a few minutes to turn off electrical devices. This not only helps save the planet but can also help you save a few bucks off your electric bill each month.
- 8 Plant a tree. This provides instant gratification and gives you exercise, immediate visual stimulation and some serious self-satisfaction!
- 9 Choose products with less packaging. Less packaging equals less waste.
- 10 Spread the word! Awareness is the key and sharing green information with your friends and family will make the planet a better place for all of us!
